

## **CUSTOM FAB SOLUTIONS EXPANDS CONTRACT MANUFACTURING-SYSTEM INTERGRATION CAPABILITIES**

CHANHASSEN, MN (June 7, 2007) - Custom Fab Solutions, LLC (CFS), a contract manufacturer and custom plastic/metal fabricator serving technology industries, has added 7,000 sq/ft to its contract manufacturing-system integration operations. The new “clean assembly” area is dedicated to OEM products solutions, has two (2) class 1000 clean rooms and a dedicated area for advanced PFA products.

The new area will meet more needs of increasingly sophisticated products that are being requested by technology markets. The assembly area is climate controlled, has a dedicated electrical (panel) area, a specialty plastic welding area and is designed to manufacture and test multiple systems up to 50 feet in length.

“Expansion is an excellent indicator of growth and customer satisfaction,” said Bill Braunwarth, Director of Sales and Marketing. “OEM customers continue to seek CFS to provide product that is built to specifications, tested and packaged so that the product can be supplied directly to the end-use customer. CFS’ vertical integration model allows us fabricate key assemblies in house, control quality, reduce lead-time and control cost. This model is what continues to separate CFS from other contract manufacturers.”

**About Custom Fab Solutions.** CFS is a Minneapolis-based contract manufacturer serving technology markets. The company is vertically integrated and specializes in Teflon®, PFA and thermoplastic fabrication. The company has expertise in metal fabrication, electro-polishing and other surface treatment services. The company combines its capabilities with customer needs to integrate instrumentation and controls into a ready-to-use product. CFS primarily serves the photovoltaic, medical, pharmaceutical, semiconductor, disk drive, aerospace, food and electronics industries, where precision and contaminant-free material/products are required. The company web site is located at: [www.CustomFabSolutions.com](http://www.CustomFabSolutions.com).
