

## **FOLLOW-ON ORDER FROM SEMICONDUCTOR EQUIPMENT SUPPLIER REFLECTS CUSTOMER SATISFACTION WITH CFS**

CHANHASSEN, MN (March 9, 2006) - Custom Fab Solutions, LLC (CFS), a custom plastic/metal fabricator and systems integrator serving technology industries, received a follow-on order from an existing southwestern U.S.-based customer to build process cabinets used in the semiconductor industry.

The project makes use of CFS' plastic and metal machining, welding, electropolishing, fabrication, and assembly services. The company uses these process modules as the foundation to manufacture customer-specified process tools used to perform a variety of wafer cleaning processes for the semiconductor industry.

"We received this latest order because the customer was extremely pleased with the quality, attention to detail and the on-time delivery we demonstrated with last year's order," said Bill Braunwarth, CFS Director of Sales and Marketing. "We look forward to receiving ongoing orders from this manufacturer."

**About Custom Fab Solutions.** CFS is a Minneapolis-based fabricator of plastics, Teflon® and PFA. The company offers metal fabrication, electro-polishing services and is a systems integrator serving technology markets. The company combines its capabilities with its customers' needs to integrate customer-specified instrumentation and controls into a ready-to-use product. CFS primarily serves the semiconductor, disk drive, electronics, medical, pharmaceutical and aerospace industries, where precision and contaminant-free material/products are required.
