

NEW CUSTOMER SELECTS CFS TO MANUFACTURE COMPONENTS FOR ITS FOOD MANUFACTURING FACILITY

CHANHASSEN, MN (August 27, 2007) - Custom Fab Solutions, LLC (CFS), a contract manufacturer and custom plastic/metal fabricator serving technology industries, has received repeat orders from a new customer, a Minneapolis-based food manufacturer that is a major supplier of hot and cold sandwiches to the U.S. convenience store industry.

The award-winning company depends on vendors who can provide high-quality products in compressed lead times for its state-of-the-art manufacturing facility. CFS is providing numerous components and sub-systems ranging from conveyers and handling products to stainless steel tables, guards and racks. In order to maintain its position as a leading manufacturer, vendors must align with the company's needs for manufacturing flexibility, streamlined product flow and food safety.

"The company chose CFS because of our strong stainless steel fabrication and assembly capabilities," said Bill Braunwarth, Director of Sales and Marketing. "CFS is a good fit because of the company's commitment to vertical integration, expertise in stainless steel fabrication and quality systems. We are especially pleased that this new customer represents a new market for CFS and anticipate additional orders in the future."

About Custom Fab Solutions. CFS is a Minneapolis-based contract manufacturer serving technology markets. The company is vertically integrated and specializes in Teflon®, PFA and thermoplastic fabrication. The company has expertise in metal fabrication, electro-polishing and other surface treatment services. The company combines its capabilities with customer needs to integrate instrumentation and controls into a ready-to-use product. CFS primarily serves the photovoltaic, medical, pharmaceutical, semiconductor, disk drive, aerospace, food and electronics industries, where precision and contaminant-free material/products are required. The company web site is located at: www.CustomFabSolutions.com.
