

**CUSTOM FAB SOLUTIONS MEETS GLOBAL CUSTOMERS' NEED AS REFLECTED IN ORDER FROM ASIAN CUSTOMER.**

**CHANHASSEN, MN.** – (Sept. 8, 2003) – Custom Fab Solutions, LLC (CFS), a custom plastic/metal fabricator and systems integrator serving technology industries, announced today that it has received a new order for a DI (deionized) water treatment module from a Thailand-based manufacturer serving the hard disk drive industry.

“We are pleased to see Custom Fab Solutions capabilities recognized in the global marketplace, as indicated by this order,” said Bill Braunwarth, CFS Director of Sales and Marketing. “The end use customer will integrate the water treatment module, used to filter and control the amount of dissolved oxygen in DI water, into its manufacturing line to enhance its production capability. The assembly is supplied assembled/ready for installation. It will also be cleanroom-packaged in CFS’ Class 1000 cleanroom.

“This project also validates Custom Fab Solutions capabilities to provide cost effective solutions to global markets as well as the domestic marketplace,” said Braunwarth.

This project represents some of the expanded capabilities now offered by Custom Fab Solutions. Its new capabilities, technologies, products, services and facility are being showcased in an Open House on Thursday, October 9<sup>th</sup>, from 3 to 7 p.m.

**About Custom Fab Solutions.** CFS is a Minneapolis-based fabricator of plastics, Teflon and PFA. The company offers metal fabrication, electro-polishing services and is a systems integrator serving technology markets. The company combines its capabilities with its customers’ needs to integrate customer-specified instrumentation and controls into a ready-to-use product. CFS primarily serves the semiconductor, disk drive, electronics, medical, pharmaceutical and aerospace industries, where precision and contaminant-free material/products are required. The company web site is located at: [www.CustomFabSolutions.com](http://www.CustomFabSolutions.com).
