

NEW ORDER DEMONSTRATES CUSTOM FAB SOLUTIONS CAPABILITIES

CHANHASSEN, MN. – (Sept. 22, 2003) – Custom Fab Solutions, LLC (CFS), a custom plastic/metal fabricator and systems integrator serving technology industries, announced today that it has received a new order for a glass substrate carrier assembly from a US-based supplier serving the bio-defense industry.

“This customer selected CFS because we were able to take its vision and fuse CFS’s knowledge and capabilities to produce a new product,” said Bill Braunwarth, CFS Director of Sales and Marketing. “The end use product is composed of multiple plastic materials. It is supplied assembled/ready-to-use and will be clean room packaged. This project also reflects CFS’ capability to design, fabricate and supply cost-effective solutions with assurance guarantees within a three-week manufacturing timeframe.”

This project represents some of the expanded capabilities now offered by Custom Fab Solutions. Its new capabilities, technologies, products, services and facility are being showcased in an Open House on Thursday, October 9th, from 3 to 7 p.m.

About Custom Fab Solutions. CFS is a Minneapolis-based fabricator of plastics, Teflon and PFA. The company offers metal fabrication, electro-polishing services and is a systems integrator serving technology markets. The company combines its capabilities with its customers’ needs to integrate customer-specified instrumentation and controls into a ready-to-use product. CFS primarily serves the semiconductor, disk drive, electronics, medical, pharmaceutical and aerospace industries, where precision and contaminant-free material/products are required. The company web site is located at: www.CustomFabSolutions.com.
