

## **CFS HIRES PAUL LIES AS PROJECT MANAGER**

CHANHASSEN, MN (April 2, 2008) - Custom Fab Solutions, LLC (CFS), a contract manufacturer and custom plastic/metal fabricator serving technology industries, recently hired Paul Lies as a Project Manager. Mr. Lies will provide project and program leadership for key customers support and support new business opportunities in his role at CFS.

Lies has 22+ years of experience in project management, production management and sales support in the semiconductor equipment industry. Prior to joining CFS, Mr. Lies held several essential positions at Edwards Chemical Management Division. He served as a field project manager, production manager, sales program manager and supply chain manager for the Chemical Management Division of FSI International after its acquisition by BOC Edwards.

“Paul brings a wealth of experience in project, production and program management in the technology markets we serve”, said Bill Braunwarth, Director of Sales and Marketing. “He will provide our key customers with a single point of contact for the technical aspects of complex projects and be able to manage internal and external scheduling. This will allow us to better focus our internal resources to meet our customer’s needs.”

**About Custom Fab Solutions.** CFS is a Minneapolis-based contract manufacturer serving technology markets. The company is vertically integrated and specializes in Teflon®, PFA and thermoplastic fabrication. The company has expertise in metal fabrication, electro-polishing and other surface treatment services. The company combines its capabilities with customer needs to integrate instrumentation and controls into a ready-to-use product. CFS primarily serves the photovoltaic, medical, pharmaceutical, semiconductor, disk drive, aerospace, food and electronics industries, where precision and contaminant-free material/products are required.
