

## **CFS RECEIVES REPEAT ORDER FOR WATER DISINFECTANT SYSTEMS**

CHANHASSEN, MN (November 16, 2009) - Custom Fab Solutions, LLC (CFS), a contract manufacturer and custom plastic/metal fabricator serving technology industries, announced it has received a repeat order from an established customer who supplies water disinfectant products to commercial and institutional markets. The customer is Illinois based and known for its technologies to eliminate a wide variety of microbial contaminants and disinfect water to exacting standards.

The multiple system order calls for CFS to manufacture a variety of special metal and plastic components, fabrication of the water treatment module, procure and install specified instrumentation, wiring of components and assembly of the control system. Upon completion the system will be quality tested and ready for customer use.

"This is an excellent example of how CFS is able to use its plastic and metal fabrication, electro-polishing and electrical/mechanical assembly capabilities to manufacture products in a compressed time line with assured quality at a highly competitive cost," said Bill Braunwarth, V.P. Business Development. "As a growing company, we are continuing to execute our business model of contract manufacturing through a vertical integration to meet the demands of established and new clientele."

**About Custom Fab Solutions.** CFS is a Minneapolis-based contract manufacturer serving technology markets. The company is vertically integrated and specializes in Teflon®, PFA and thermoplastic fabrication. The company has expertise in metal fabrication, electro-polishing and other surface treatment services. The company combines its capabilities with customer needs to integrate instrumentation and controls into a ready-to-use product. CFS primarily serves the photovoltaic, medical, pharmaceutical, semiconductor, disk drive, aerospace, food and electronics industries, where precision and contaminant-free material/products are required. The company web site is located at: [www.CustomFabSolutions.com](http://www.CustomFabSolutions.com).
